I'll sing you a song of a Printer Boy, Whose bright and honored name Stands out in glowing carifals, Upon the scroll of fame; Who, in the days that tried men's souls, lu freedom's darkest night,

Stood manfully with Washington, And battled for the right. Ben Franklin was that Printer Boy, one of the olden time,

And 'twas that boy who flew his kite To the thunder clouds on high, And brought the forked lightning down From regions of the sky; Twas he who caught this fiery horse, And trained him for the chase,

Right into the printer's case. Ben Pranklin was that Printer Boy, one of the olden time.

Till now he's driven safe by Morse

Long shall the world extol his name, The patriot and sage, Who, fully justified by faith, Was proved on every page; His form, corrected and revised, Is now worked off and pressed A new edition in the skies,

A star among the blest. All honor to that Printer Roy, one of the olden time. -And now, my brother typos, take This leader for your guide;

Follow corrected copy, and All errors mark outside; Be frugal, chaste, and temperate, Stick to the golden rule. And you shall shine among the stars,

In the printing office school. Just imitate that Printer Boy, one of the olden time. THE PERSON NAMED IN COLUMN

Judge Perkins.

The Cannelton Express, a neutral paper published at May term 1850, 11 cases. Cannelton, Indiana, contains a very severe article in opposition to Judge Perkins. The Editor admits that he does not know the Judge. We, therefore, copy the following article from the Richmond Jeffersonian, written by one who does know him, and ask the Express, as an ment of the present term, 551. Whole number submit- Logan, not rising from the liek-log. by one who does know him, and ask the Express, as an act of justice to Judge Perkins, and to the Democratic patrons of that paper, to publish it. If the Express is really a neutral paper, we are certain the Editors will really a neutral paper, and the same feetly resembling the natural fluid, or Gastric Juice, pertain the disk-log.

The fact that an Artificial Digestive Fluid, or Gastric Juice, pertain the did that that the paper, and the same feetly resembling the natural fluid, may be readily prepared, does more than the feetly resembling the natural fluid, or Gastric Juice, pertain the feet that an Artificial Digestive Fluid, or Gastric Juice, pertain the feet that an Artificial Digestive Fluid, or Gastric Juice, pertain the feet that an Artific comply with this reasonable request.

He spent the ensuing winter in close reading in the office of Jadge Borden, then of this place, but now of Fort Wayns. In the spring of 1837 he was admitted to the Bar at Centreville. He opened an office in our city, immediately after his admission, being then in debt for his winter's board. At the same time he enumenced editing the Jeffersonian which paper had just been started by a Democratic club. He soon obtained a large and lucratice practice, at a bar where he seame immediately in contact with such lawyers as Newman, Perry, Test, Parker, Caleb B. Smith, &c. In 1838, the Jeffersonian was sold to Lynde Elliott, who contacted it about a year, and failed. He had morting aged the press to Daniel Reed of Fort Wayne for more than its value. Mr. Reed came to our city, after Elliott's failure, for the purpose of removing the press to Fort Wayne. Unwilling that the Democracy here should be without an organ, Judge Perkins came forward and paid off the mortizage, took the press, recommenced the Jeffersonian (the writer of this article being its printer), and continued it through the campaign of 1840, after which our humble self became its purchaser by whom it has been continued till the present time, and we will and by when, the democracy along, the continued in the surface of the strategies of the purpose of removing the continued in time to come. In the near time, Judge Perkins lab.

They been the proper of the purpose o

part he was nominated by Gov. Whiteomb, a cautions revolution."

Since that confirmation he has been five years in the discharge of the duties of his station. How he has acquitted himself, we, not being lawyer cannot of course speak from our own knowledge. But the testimony ing. The committee of a hundred contributed \$10 each.

of the lawyers is all in his favor, and we have heard no complaint—no charge of partiality or negligence. On the other hand all agree that he has faithfully and laboriously devoted himself to his duties, and that he has dispatched more business than either of his able associates. This is shown by the official report which we find in the weekly State Sentinel of Jan. 8, 1852. It is known to our readers that an equal number of cases is distributed to each of the Judges:

CLERK'S OFFICE OF THE SUPREME COURT,)
December 17th 1851.

HON. JOHN W. DAVIS, Speaker of the House of Representatives:

The undersigned Clerk of the Supreme Court of Indiana in responding to the following resolution of the shone out warmly, and all Nature was green and fresh of the Supreme Court be requested to communicate to this House, as soon as practicable, the number of Causes submitted to the Supreme Court for decision prior to the commencement of the present term, which now remain undecided—stating the number submitted at each term undisposed of in hands of each Juge."

Alter a heavy rain of two or three days duration, Logan went down from his house, through the little strip of creek bottom, to the bank of the creek, and sat himself down on a "lick-log," musing, perhaps, as Colonel Jack McCarty once said, "on the evan then the of all thublunative things."

The creek was about twenty yards wide, and the rain in the communicate to the supreme Court for decision prior to the commencement of the present term, which now remain undecided—stating the number submitted at each term undisposed of in hands of each Juge."

the present term yet undecided.

Blackford submitted at the following terms. November term 1848, 2 cases.

May term 1851, 29 cases.

Total,

Twenty-six are in the hands of Judge Perkins submitted as follows:

May term 1849,

November term 1849,

May term 1850,

May term 1850

Total, 77 cases. Whole number of cases on docket at the commence-

member of the late Democratic State Convention, and that he possesses legal attainments of the highest order, with rage, and streaming with water. Luckily he had

GREAT CURE FOR DYSPERSIA! ANOTHER SCIENTIFIC WONDER!

The true Digestive Fluid, or Gastrie Juice.

The true Digestive Fl

Logan was sitting, was the only opening in the woods, which fringed the stream on each side. Above and below the trees leaned over, and their branches hung gracefully in the water, and swung to and fro in the swift current.

After Logan had sat there a little while, Judge Scott came riding down the road on the other side, but halted when he reached the water's edge, and looked across, without saying anything, but looking as if he thought, "D—n you, if it's swimming, why don't you say so?"

Logan took out his jack-knife, split a piece off from the look to the period of the puritying, preserving, and stime little while, precisely like the natural Gastrie Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of indigestion and dyspepsia are removed, just as they would be by a healthy stomach. It is doing wonders for Deyspeptics, curing cases of Deblity, Emacistion, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The scientific evidence upon which is based, is in the highest degree curious and remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says:

hold of the swinging limb of a sycamore which dipped into the water.

"Help, Logan, help!" cried Scott. "I shall be drowned! Help!"

"I shall be drowned! Help!"

THE GREAT KENTUCKY REMEDY. DR. JOHN BULL'S SARSAPARILLA!!

Will Wonders never Cease? I F the following cures, performed alone by the use of BULL'S SARSAPARILLA, are not wonders, then we acknowledge that we do not know the meaning of the word. Read, and be convinced that facts are stranger than

word. Read, and be convinced that facts are stranger than botton:—

LINE P. O., Fulton Co., Ky., Oct. 1, 1851.

Dr. John Bull: Dear Sir—The two dozen of your Sarsaparilla, ordered in September, came to hand, and, in acknowledging the receipt of the same, I feel I would be doing you injustice to withhold the following, among the many of the instances that have come under my observation, during the last two years, of the great curative properties of your Sarsaparilla:—

Mrs. Jeannette Martin, a highly respectable lady of my neighborhood, aged sixty-five years, had been long affilicted with a cancerous ulcer, which finally reduced her to so helpless a condition, that she could not leave her bed. She tried the best medical advice in our county, without relief, and had given up all hopes of a cure. At this stage of her case, I persuaded her son to take a bottle of your Sarsaparilla. He did so, and in a short time returned, and purchased another bottle, stating the first had had a decidedly good effect. She continued to use it until, after the use of five or six bottles, I had the pleasure of seeing the old lady herself at church. She assured me that she had almost entirely recovered her health, and from her I received the account of her disease, and in about the same words I give it to yo. This is but one of a number of cures under my observation—of very remarkable ones—perfermed by the use of your Sarsaparilla, in my neighborhood. The demand for it has steadily increased since its introduction here. Very respectfully, your obedient servant, WM. R. DICKINSON, P. M.

Boyle County, Ky., Oct. 6, 1851.

Dr. John Buil: Dear Sir—I have seen the most marvellous cure of one of my patients, by your valuable medicine—an old lady, who had been afflicted from her childhood with scrofula, and various diseases of the brain. She was sixty years old. It had run into something like leprosy, and she was the most frightful creature my eyes ever beheld. I called in Dr. McFadden, a very fine physician, to consult with me in relation to her. We came to the conclusion that it was out of our power to relieve her; but, on going to my office, I accidentally pirked up one of your Journals, when, on seeing the wonderful cures your Sarsaparilla had effected, I resolved to try the experiment in this case. I took her two bottles of it, after taking which I perceived a great change. I took her some more. She is how taking the sixth bottle, and I consider her entirely cured. I take great pleasure in recommending your Sarsaparilla to the afflicted public.

Yours respectfully,

JOHN M. ROSS, M. D.

I, Thomas A. Ringo, of Graves Co., Ky., for the benefit of mankind generally, do hereby certify, that on or about the 16th day of October, 1847, I was attacked with a very severe pain in the lower part of the abdomen, which lasted but a few minutes, and moved into the left hip, and continued exceedingly painful for about five days, during which time I had a very light fever. At the end of that time the fever ceased, and the pain abated for a day or two, after which it again returned, and was much worse than before. During all this time I was under medical treatments. ment. From a short time after I was taken, I was unable to walk or sit up; the hip in which the pain was so bad commenced rising, until some time in January, when it burst, and a number of pieces of bone came out—as many as twenty, at least. Some of the pieces were three-fourths of an inch long. Some time after this, a hard knot appeared on my right hip, also one on my right wrist, and one on my leg, below my knee. I continued to get weak and worse, and pain made its appearance in my right shoulder, and would move in my breast and stomach. At this time all persons gave me up to dio. A physician thea told me that, as a last remedy, I had better use MR. BULL'S FLUID EXTRACT OF SARSAPARILLA. After the use of the second bottle, the knot on my wrist com-PULL'S FLUID EXTRACT OF SARSAPARILLA. After the use of the second bottle, the knot on my wrist commenced getting soft. I opened it, and a day or two after, a piece of bone came out. My wrist soon got well, and I continued to gain strength. After I used the third bottle, I could get no more for some four weeks, after which time I succeeded in getting three more bottles. After using the three last bottles, the knot en my hip became soft; it was opened, and some corruption ran out together with a small piece of bone, and the sore soon got well, and the knot entirely diappeared. The sore on my leg also opened, and a piece of bone came out. I continued the use of the Sarsaparilla until I used twelve bottles, and are now entirely well, and able to do daily labor. It may seem strange to some, but I will here state that, during the summer of 1849, I coughed up three pieces of bone, which can now be seen at the residence of my unele, Thos. Neal, where I now live, and if any persons deubt this statement, I will be happy to converse with them, if they will call on me. Signed, THOMAS N. RINGO.

me. Signed, State of Kentucky, Graves Co., Sct.

This day personally came before me the undersigned, an acting justice of the peace in and for said county, and made eath in due form of law, that the above statement is true. Subscribed and swern to, this 15th day of February, 1830.

S. P. MORSE, J. P. for G. O.

I, Irwin Anderson, Clerk of the County Court of Graves County, State of Kentucky, do certify that S. P. Morse, whose name is signed to the above certificate, is now, and was at the time of signing the same, a justice of the peace, in and fer said Graves County, duly commissioned and qualified as such, and that faith and credit are due all his official acts, as such.

In testimony whereof, I have hereunto set my [L. S.] said county to be hereunto affixed, this 18th day of February, 1850.

EDWIN ANDERSON.

EDWIN ANDERSON. Can the reader believe, after reading the description of the above numerous cures, that there is still a few human beings, suffering with dicease, that refuse to give Buil's Sarsaparilla a trial. It is indeed hard to believe, but nevertheless, it is too true. What kind of testimony would it take to convince the few remaining disbelievers, that Buil's medicine will do more even than it promises? The doctor could preduce another and another cure performed by his medicine; but if the cases published above will not convice the sceptical, it is useless to produce any more, and, indeed, it would cost a fortune to publish the many cartificates that have been showered on Dr. Buil. The largest manneoth sheet in America would not contain even the names of those cured, let alone full statements of their cases.

cases.

This medicine, when used according to directions, will cure, without fail:

Sanofula or King's Evil, Cancers, Tumors, Eruptions of the Skin, Erysipelas, Chronic Sore Ryas, Ringwarm or Tetters, Scald Head, Rheumatism, Pains in the Bones or Joints, Old Sores and Ulcers, Swelling of the Glands, Syphilis, Dyspepsia, Salt Rheum, Diseases of the Kidneys, Diseases arising from the use of Mercury. Loss of Appetite, Pain in the Side or Shoulders, General Debility, Lumbago, Propsy, Jaundice, Costiveness, Bronchitis, Sore Threat, Bougus, Colds, Weakness of the Chest, Pulmonary Affections, and all other Diseases tending to produce Consumption, Liver Complaints, Fennie Irregularities and Complaints, Sick and Nervous Headache, Low Spirits, Night Sweats, Exposure or Imprudence in Life, Chronic Constitutional Diseases, and as a Spring and Summer Drink, and General Tonic for the System, and a Gentle and Pleasant Purgative, it is superior to Blue Lick and Congress Water, Salts, or Seidlits Powders.

have been extensively engaged during several years past. It has been but recently that this article was first introduced by us in this

have been extensively engaged during several years past. It has been but recently that this article was first introduced by us in this State. It was then new, had no influence in its favor but its own merit, and did not fail to receive its full share of the opposition which is so generally and indiscriminately urged against new improvements, or innovation upon old established custom. The fact that it has, under these circumstances, solely upon its own merits, and in so short space of time, overrun all opposition, and grown into almost universal favor, is sufficient evidence of the judgment of the public as to its utility and value.

Having had our Roof tested under every variety of circumstances, we confidently offer it to the public as a mode of Roofing unobjectionable in every important particular, while it combines in a greater degree than any other Roof in use, the valuable requisites of cheapness, durability, and security against both fire and water. This system of Roofing is superceding the use of all other kinds, giving universal satisfaction, and is highly recommended by all who have tested its utility. These Roofs require an inclination of only one inch to the foot, which is often of great advantage in cases of fire, and for drying purposes. They are afforded at a price not to exceed the cost of slingle roofing, while the amount of material saved, which would otherwise be used in extending up the walls for a steep roof, often renders the cost of the building less with the Composition Roof than with shingles; and sometimes the whole cost of Roofing a building after this plan is paid for by the brick saved in the gable ends, and the trus framping necessary for such buildings. The expense of the amount of material, and the distance the water may have to run does not increase the liability to leak.

It will be to the interest of those about to use these Roofs, to bear

It will be to the interest of those about to use these Roofs, to bear in mind, that whatever value and reputation they have acquired in this vicinity, has resulted from the work performed by us. We have put on upwards of four hundred Roofs, and there is not to our knowledge, an individual who has had a Roof made by us, who

has ever been communicated by us to any one.

If We are also prepared to furnish plans for the construction of Buildings and Roofs to receive our Composition Roofing, and shall be pleased to meet any who may desire further information relative to our Roof, and show samples of our Roofing, measuring

shall de pieased to meet any who may desire further information relative to our Roof, and show samples of our Roofing, measuring from 1,000 to 8,000 feet.

As an evidence of the truth of our statements, and the high character which sur Roof sustains in this State, we refer to the undersigned, who have ir use our Improved Fire and Water Proof Composition Roof, and are best qualified to testify in its tavor.

we would recommend that the following named members of the present class receive Diplomas, to wit:

James B. Weeks, John M. Dorsey, Hezekiah W. Roberts, Samuel J Morris, Joseph R. Haugh, John T. Ferguson, George W. Dorsay, Nicholas McCarty, Jr., James T. Brown, and Tvra Montgomery.

And in conclusion we would congratulate the citizens of Indiana in now having it in their power to patronize a home Institution of Commercial education where as much information, in as short a time, and at far less expense, and anxiety of mind on the part of parents and guardians, can, and we believe will be imparted, as at any other similar Institution in the West.

B. F. MORRIS,
DAVID WILLIAMS

BENJ. L. LANG unter of this Institution who may desire it, with immediate employment; he therefore requests business men in any part of the State who may be in want of good accommants to inform him of the same stating all particulars, and he will try and soud him one well qualified in every particular.

EDWIN MAY. C. ZIMMERMAN & Co., Improved Fire and Water Proof Composition Roofing. W E desire to direct the particular attention of the Public to our Composition Roofing, in the Manufacture of which we

would not again adopt our Roof.

Knowing the importance of punctuality in our business, we pledge ourselves that no hindrance to the progress of other parts of the building shall be caused by delay on our part. We hold ourselves in readmess to execute orders to any extent for our Roofing, and at the shortest notice.

In the course of our operations here, several important improvements have been made by us, both in the mode of putting on, and also in the preparation and compounding of the materials of the composition, which render it peculiarly adapted to this climate. No knowledge of this latter and very essential part of the business
